				100.00

Procedure

1. Combine Phase A using a high shear mixer. Mix for 15 minutes.
2. Add Phase B, excluding mannitol, and mix for 10 minutes using a powder mixer.
3. Add the mannitol and mix for 5 minutes using a powder mixer.
4. Press the mixture into a tablet using a tablet press.

How To Use

Bite down on tablet to break. Brush for 2 minutes with wet toothbrush.
